

## Storm Data and Unusual Weather Phenomena - February 2010

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
ARKANSAS, Northwest				
(AR-Z002) CARROLL				
	02/04/10 00:00 CST		0	Winter Storm
	02/04/10 11:00 CST		0	
An area of light to moderate precipitation developed across the region with the approach of an upper level disturbance. A mixture of rain, sleet, and some light freezing rain occurred in this event resulting in a generally light accumulation from the wintry mix. The precipitation was prolonged across portions of northwestern Arkansas and as a result, one half to one inch of sleet fell across portions of southern Carroll County.				
(AR-Z001) BENTON, (AR-Z002) CARROLL, (AR-Z010) WASHINGTON, (AR-Z011) MADISON, (AR-Z019) CRAWFORD, (AR-Z020) FRANKLIN, (AR-Z029) SEBASTIAN				
	02/07/10 21:00 CST		0	Winter Storm
	02/08/10 22:00 CST		0	
An upper level disturbance moved into the Southern Plains from the Southern Rockies on the 8th. A large area of precipitation developed as the system approached. Rain changed to snow in extreme northwestern Arkansas during the evening of the 7th and gradually transitioned southward during the morning hours of the 8th. Four to ten inches of snow fell across much of northwest and west central Arkansas, especially in the higher terrain.				
OKLAHOMA, Eastern				
(OK-Z063) DELAWARE, (OK-Z069) ADAIR, (OK-Z072) SEQUOYAH, (OK-Z076) LE FLORE				
	02/08/10 01:00 CST		0	Winter Storm
	02/08/10 22:00 CST		0	
An upper level disturbance moved into the Southern Plains from the Southern Rockies on the 8th. A large area of precipitation developed as the system approached. Rain changed to snow in extreme northeastern Oklahoma during the evening of the 7th and gradually transitioned southward during the morning hours of the 8th. Temperatures remained near 32 degrees so much of the snow melted on contact due to the relatively warm ground but 1 to 3 inches accumulated during the event north of a Clayton to Poteau line. Four to six inches fell in some of the higher terrain in extreme eastern Oklahoma where temperatures had fallen into the upper 20s during the event.				
(OK-Z049) PUSHMATAHA, (OK-Z053) CHOCTAW				
	02/11/10 10:00 CST		0	Winter Storm
	02/12/10 00:00 CST		0	
An upper level disturbance moved across the northern portions of Texas on the 11th. Precipitation spread into southeastern Oklahoma during the morning hours and continued into the late evening hours. One to three inches of snow fell across southeastern Oklahoma south of a Poteau to McAlester line. Four to six inches of snow occurred across portions of Choctaw and Pushmataha Counties.				
TULSA COUNTY --- TULSA [36.15, -95.95]
